NEURODIVERSITY RESOURCES

UC|CSU Collaborative for Neurodiversity & Learning

A state-mandated resource available to all California families and students — providing free, research-based tools for literacy, dyslexia, and diverse learning needs.

Visit: https://ca-diverse-learning.org/programs/literacy-dyslexia/

Notice to Parents, Guardians & Students: California law requires each local educational agency (LEA) to provide prominent, easily accessible links to neurodiversity resources developed by the **UC|CSU Collaborative for Neurodiversity and Learning**. This page fulfills that requirement and is designed to help families quickly access free support for their child.

About the UC|CSU Collaborative

The UC|CSU Collaborative for Neuroscience, Diversity, and Learning is a partnership between the University of California and the California State University systems. It brings together leading researchers, educators, and policymakers to improve literacy outcomes for all California children — especially those with dyslexia and diverse learning needs.

🎓 Research-Backed

All resources are grounded in the latest neuroscience, psychology, and educational research from UC and CSU faculty.

🆓 Free & Open Access

All learning modules are completely free. Create a free account at arrayalearning.org to get started.

🌍 Multilingual Support

Includes resources specifically addressing the needs of English Learners and multilingual students.

⚖️ Rooted in Equity

The Collaborative believes literacy access is a civil rights issue and works to ensure equal opportunity for every child.

Available Learning Modules

The following free online modules are available to parents, educators, and students. Create a free account at arrayalearning.org to access them all.

1 **Introduction to Dyslexia and Literacy**
Foundational understanding of dyslexia, its signs, and how it affects learning
→ https://www.arrayalearning.org/detail?id=1001

2 **The Reading Brain and Dyslexia**
How the brain processes reading and what happens differently in dyslexic learners
→ https://www.arrayalearning.org/detail?id=1002

3 **Screening and Assessment of Literacy Skills**
Understanding evaluation tools and how dyslexia is identified in schools

→ https://www.arrayalearning.org/detail?id=1003

4 **Early Childhood & Dyslexia**
Language and literacy development in young and diverse learners
→ https://www.arrayalearning.org/detail?id=1004

5 **Dyslexia and Multilingual / English Learners**
Language and literacy considerations for multilingual students
→ https://www.arrayalearning.org/detail?id=2272

6 **Expanded Foundational Literacy Skills**
Core literacy instruction strategies and evidence-based practices
→ https://www.arrayalearning.org/detail?id=2357

How These Resources Support Your Family

Whether your child has recently been identified with dyslexia, you are seeking early intervention, or you want to better understand how your child learns to read, these resources offer concrete guidance.

FOR PARENTS & GUARDIANS

- ✓ Understand signs of dyslexia at any age
- ✓ Learn what to expect from school screenings
- ✓ Know your child's rights under California law
- ✓ Find evidence-based support strategies
- ✓ Connect with a network of expert educators

FOR STUDENTS

- ✓ Access self-paced, free learning modules
- ✓ Understand how your brain processes reading
- ✓ Learn about accommodations available to you
- ✓ Build confidence through knowledge
- ✓ Explore resources in multiple languages

Compliance Notice: This document is provided in accordance with California Education Code requirements directing local educational agencies to prominently display resources related to neurodiversity developed by the UC|CSU Collaborative for Neurodiversity and Learning. Resources are updated regularly at ca-diverse-learning.org.
